## Colloque 27 Septembre 2018

Toulouse

PEP ecopassport® Program

# Mission of the PEP ecopassport® program

## Program operator

- Type III product environmental declarations – EPD
- Compliant with **ISO 14025** and experimental standard **XP C08-100-1**

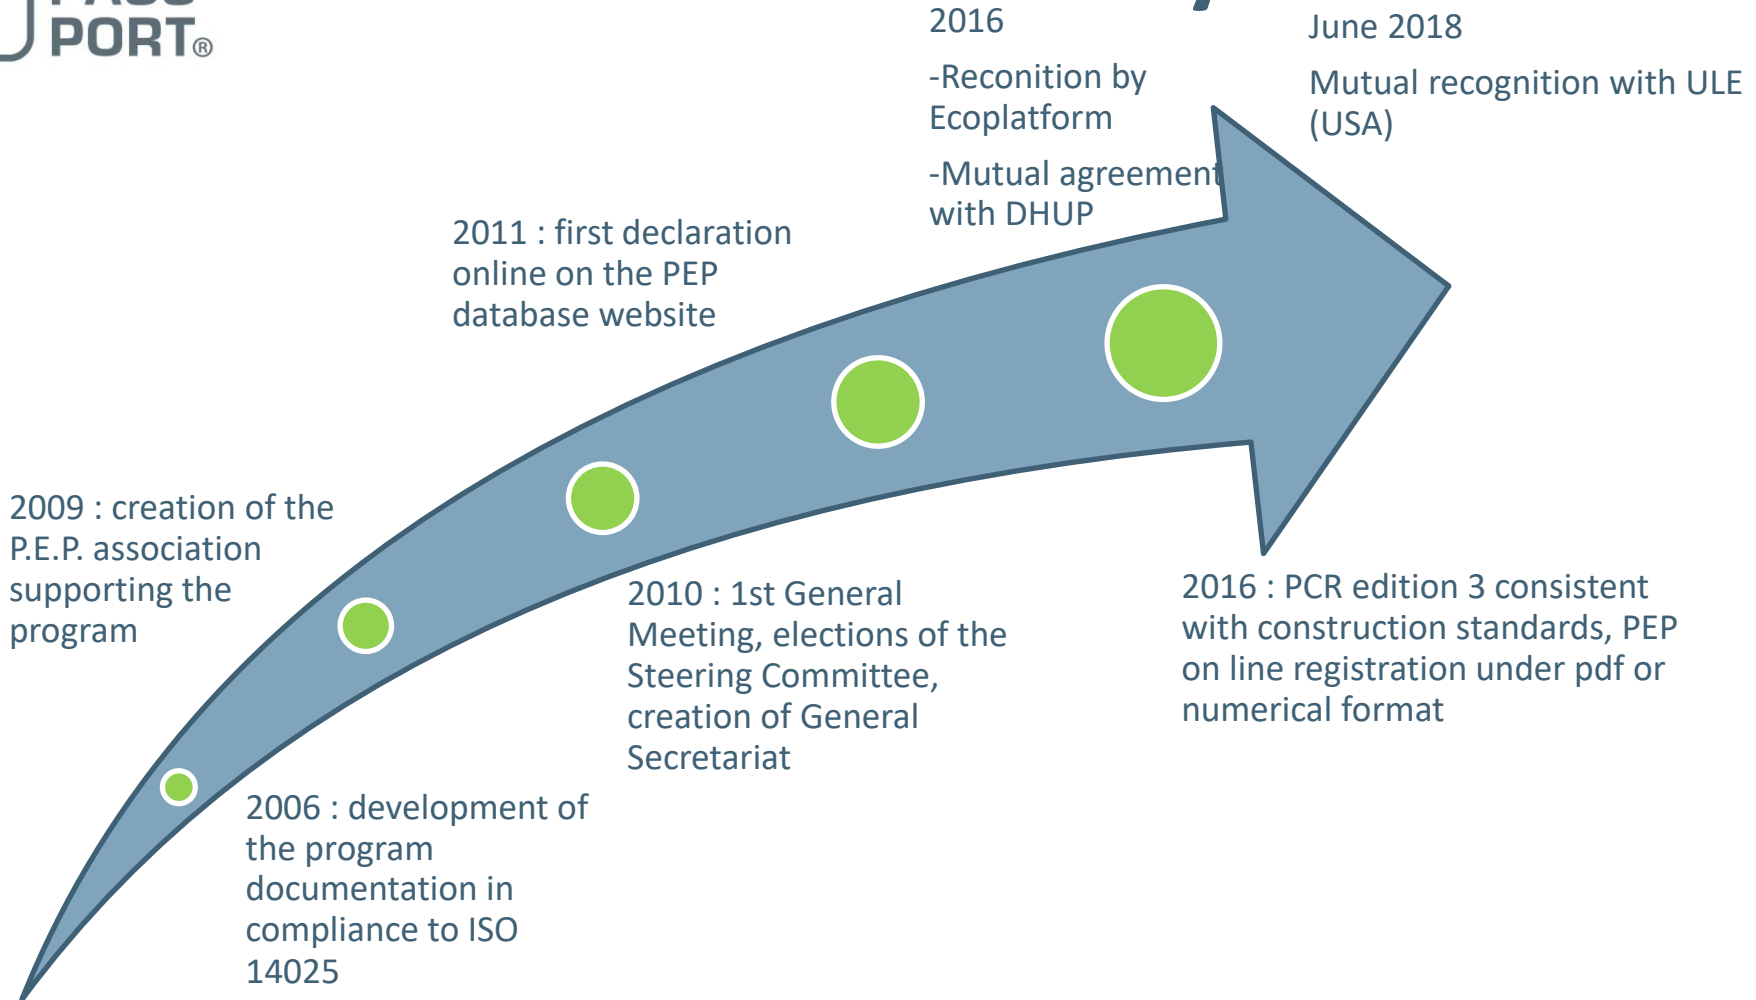

By the **electric, electronic and heating & cooling** industries

For the **construction, industry and infrastructures** markets

# PEP History

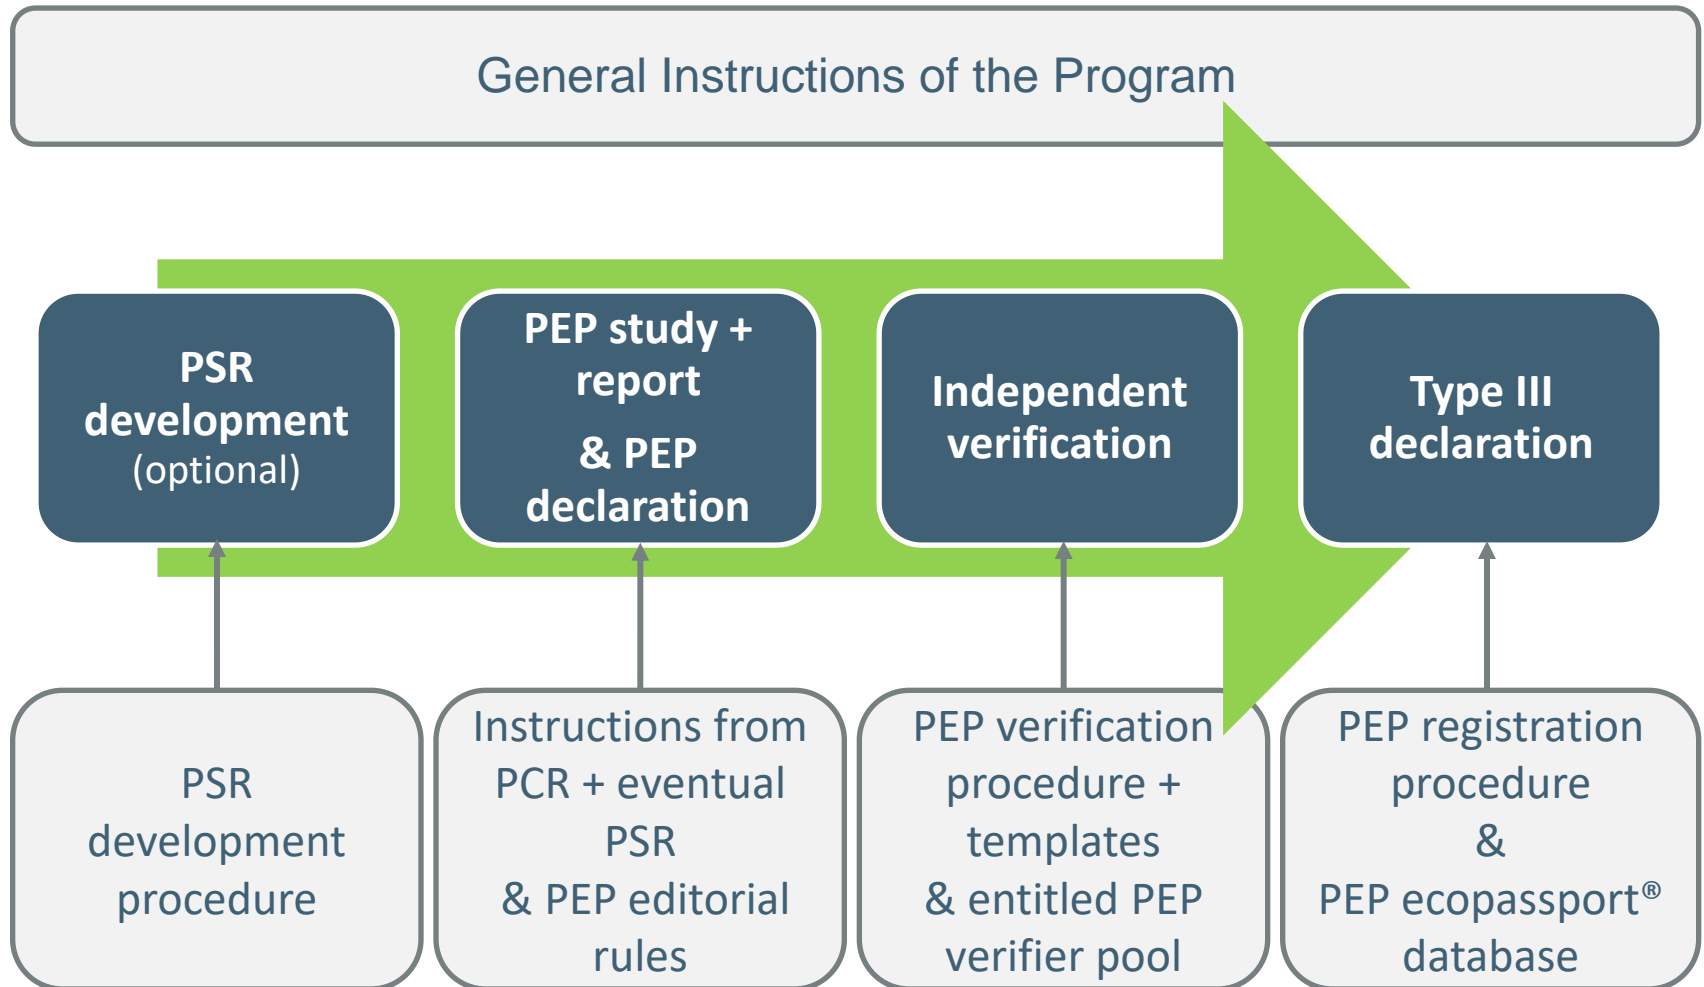

# Our EPD Program at a glance

- ❑ The program ensures the compliance of Product Environmental Profiles with the requirements of the **ISO 14025** standard
- ❑ **Initiated and developed** by and for the international electrical and electronics industry to answer to the **green building market requirements and to anticipate the evolution of the EU regulations:**
  - Strong position in EEE and HVAC-R sectors
  - Already a standard part of the green building market in Europe, recognized

# How to develop a PEP declaration

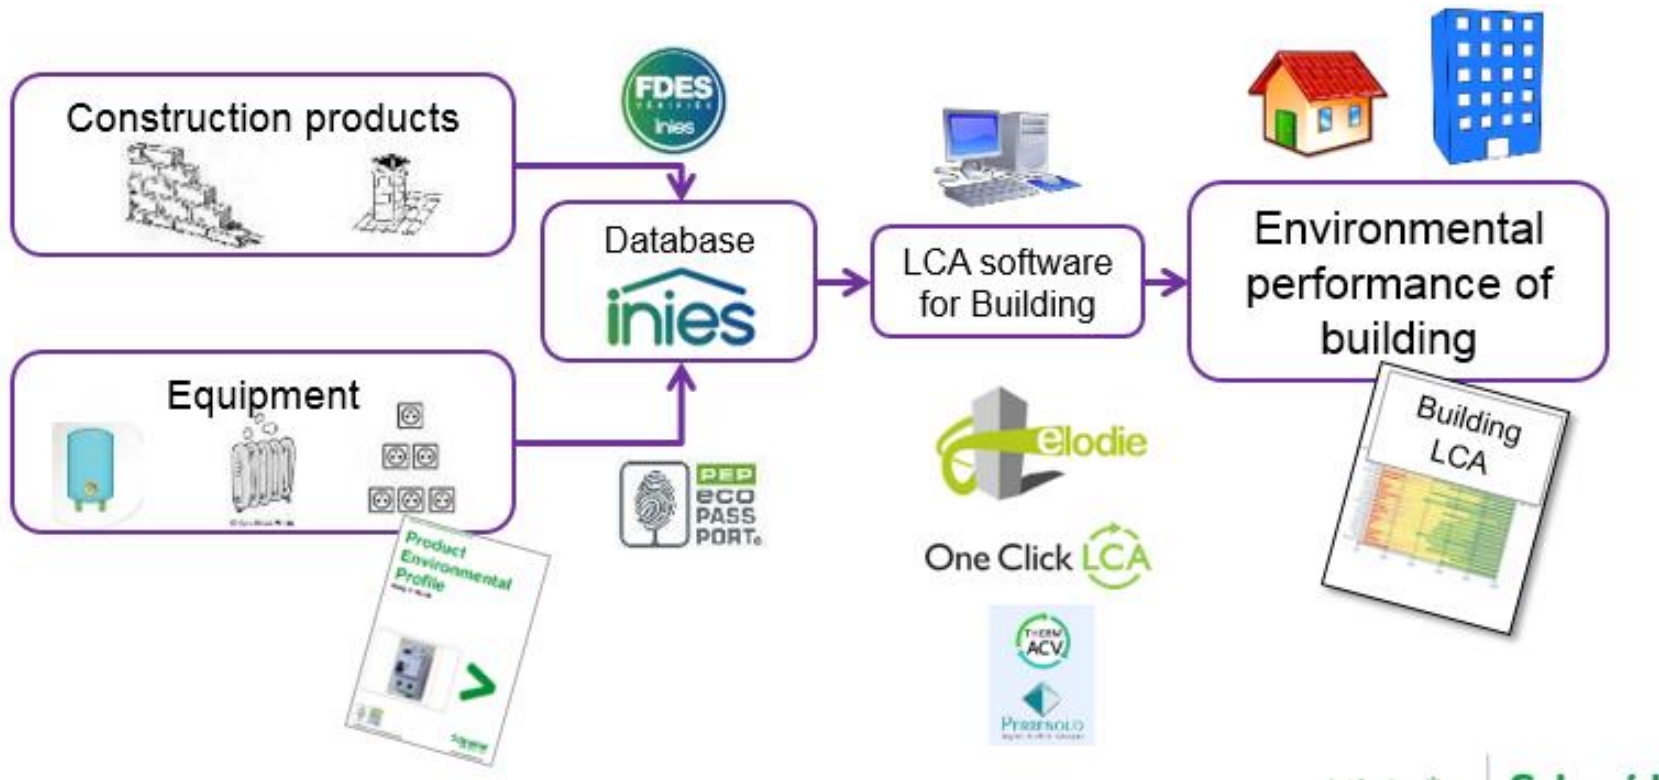

**PEP**  
**eco**  
**PASS**  
**PORT®**

# how it works from EPD to

environmental performance of Building

□ Same scheme are emerging :

➤ For LEED and BREAM building certification

# Since 2016

## International development
